INDIA Redefined in the last 6 years has evolved into a PLATFORM, functioning like a 'System Integrator' and not just an NGO. In our next level of engagement, we now offer to be a "ONE STOP SOLUTION FOR CSR" (CSR Hub) with "on the ground" 8 lakhs Volunteers spread across the country, 150+ NGOs, 1700 Man years of experts experience ,Experts in all social verticals, Project Professionals, Implementation Partners, Innovative Technology Providers and Social Enterprises that are empanelled with INDIA Redefined.

How INDIA Redefined can act like a pressure Group against corruption & Empower Citizens?

If we want our rights or make corruption accountable, we ,the citizens have to make our credibility by good works --if we do our duties on different platforms or without any banner, then we may benefit someone but if we, the Citizens, NGOs, Corporate other organizations put all our good works on one platform -like INDIA Redefined --that will make Citizens empowered to ask about their rights on their own karmas not on some leaders good karmas, something like masses did on Anna ji;s good works.
