

*Read about the making of INDIA Redefined, which is aiming to make more Doers than Beneficiaries & recommend Right people as Coordinators & help to form the Core Committee*

*Best Humanitarian Initiative 2009 award winner INDIA Redefined [www.indiaredefined.org](http://www.indiaredefined.org) needs to appoint All India Coordinators who will form the Core Committee too.*

*Aspirants can read the work profile of Coordinators and send their CV and photograph at [ranjana.kanti@indiaredefined.org](mailto:ranjana.kanti@indiaredefined.org) after joining the movement on website & send their consent, by writing two lines about themselves, why they want to be part of INDIA Redefined Movement and what they can do under this banner with their own vision. These are voluntary jobs. No Payment. Anyone who wishes to start a new wing or be part of existing wings can write.*

*All over world the Govt. sector, Corporate Sector, NGO Sector are working but INDIA Redefined Non Political Citizen's Empowerment Movement, started in 2009 is bringing the Fourth Sector "The Common People" working for the betterment of this Globe on one platform in masses across the globe.*

*Our Stakeholders include us - the Citizens of India. Common people till now have only come together if they are against something; e.g All Independence movements, Movements against corruption. They have never come on one platform to work positively for country and then empowering themselves.*

*INDIA Redefined is aiming to make more Doers than Beneficiaries. INDIA Redefined was always amalgamation of different visions. IR will never work on one thing at one time, but a vast canvas with people with different visions, leadership qualities, associating with organizations, bringing people with similar vision.*

*INDIA redefined will have many groups with heads, experts taking it ahead their own way. INDIA redefined is amalgamation of different visions.*

*Wish Infosys or Reliance steal these lines from us-Our Stakeholders include us - the Citizens of India. Wish Charitable organizations, NGOs, Corporate, Governments, Missions, Hospitals, Rotary-Lioness can make more doers instead of beneficiaries.*

*Please specify if you want to be Coordinator of any wing- in your State or City or become All India Coordinator, or All India Coordinator of that particular*

wing, or State Coordinator of that particular wing or City Coordinator of that particular wing . Please clarify after going through this letter fully.

People who wish to be All India Coordinator or State Coordinator or City Coordinator of any wing have to write the work Profile of their wing and their own work profile as a Coordinator.

Aspirants of Youth Coordinators in various States, Cities, Universities have to interact on [youth4change@indiaredefined.org](mailto:youth4change@indiaredefined.org). Work Profiles of All India Youth Coordinators, State Youth Coordinators, and University Coordinators are different.

They may want to be Wings Coordinators on National Level, International level, or in village or city level or be in the core team of INDIA Redefined.

Work profile of All India Coordinator, State Coordinators, City Coordinators, Chapter Coordinators, NRI Coordinators, National Coordinators, International Coordinators, Coordinators for "Friends of INDIA Redefined Group" are also given on website.

**An Appeal from Team INDIA Redefined -Do recommend as many right people you know who you feel will contribute to the ideals of India Redefined. They may be from any part of globe and any background, any NGOs or any Corporate who want to make this Globe a better place to live in.**

INDIA Redefined is also trying to establish its Wings on National and International Levels. These wings will have coordinators- four on All India level of each wing who can write the work profiles of their wings and Coordinators work profiles. Then they have to form each wing on National Level, International level, in each state and then in each district, village, cities. INDIA Redefined needs coordinators in rural areas too.

INDIA Redefined the non political a citizen's empowerment Movement's USP is "Our target" - to make more doers than beneficiaries & to get more hands and more brains from common people and all other sectors our partners like Media, Police, NGOs, Bureaucrat , IT, Government, Judges, Lawyers, Corporate, Defence, UN, Doctors, Rotary, Lions etc because these were as such working for common people.

From many other countries people have shown interest to help them start similar Movements in their countries. And INDIA Redefined helped two of our neighbors Pakistan and Bangladesh. We told them to copy everything from our website [www.indiaredefined.org](http://www.indiaredefined.org). See this link from Pakistan, they have written that they are inspired by INDIA Redefined..

<http://www.iownpakistan.com/2011/04/14/please-send-this-to-every-pakistani-who-wants-to-make-pakistan-a-happy-country/>

*Please read everything on website, all the activities photographs and one year journey of INDIA Redefined, if you want to know more about INDIA Redefined.*

*All these Work Profiles written on [www.indiaredefined.org](http://www.indiaredefined.org) have been written by some young Entrepreneurs and some senior level people from all types of backgrounds across the globe who have already shown interest many times to be in the Core Committee of INDIA Redefined or to be Coordinators .Please give your inputs on these. It is becoming difficult to find right people, though we have received CVs of hundreds of people Some people have already been appointed as above coordinators as above coordinators and have helped to make these profiles and They have already started working towards the aims of India Redefined.*

*It is an opportunity for those who call themselves common Citizens of India and find this platform of INDIA Redefined right and transparent to take it forward as leaders. There are already several people and organizations working for their Countries and Society. We can always tie up with them. But our priority now is to establish INDIA Redefined as an organization.*

In addition to All India Coordinators, State Coordinators, City Coordinators, Chapter Coordinators and village coordinators, there will be different Wings of India Redefined.

*India Redefined draws its inspiration from Gandhian Movement which was a revolution focused on independence. It was also about specific actions like non- cooperation by citizens. We are just trying to apply many Gandhiji's principles' in this era and in this society . Maybe in a different flavor! Maybe the context is different! Maybe it's a different world! But the goal is the same! He also wanted India to be a better place to live in.*

*The mission is to empower citizens of India by bringing about a behavioural change in the masses towards discharging their responsibilities and exercising their rights which are constitutional, societal and social.*

*Anti Corruption Movement has united the Citizens &this unity has to remain to become like a pressure group forever. A few leaders, like Anna, have first built their credibility by doing their duties. And even the followers of such leaders have yet to do their duty towards country, society and community at large. Hence the moral authority of such movements does not last long and is dependent on the leader's karma. First fulfill your duties and responsibilities, then you automatically have the moral authority to demand your rights and once it is done on a unified platform like INDIA Redefined [www.indiaredefined.org](http://www.indiaredefined.org), nobody will be able to ignore your rights.*

*"Don't leave governance to the people who are not our representatives, don't leave Policy to the people who do not feel they are accountable to us, and don't leave all the other problems like literacy, slums, environment etc to NGOs and social workers who struggle without Citizen's support."*

*For too long as citizens we have demanded our rights through numerous movements, always ignoring our duties. If you are willing to mentor ten semi illiterate Indians about this Anti Corruption then JOIN INDIA Redefined [www.indiaredefined.org](http://www.indiaredefined.org) C.U.R.E INDIA Campaign - Citizen United for Redefining & Empowering. "Ek Ka Dus" is the first Initiative of C.U.R.E. India Campaign. Make a difference in the lives of ten underprivileged Indians and let them become your follower.*

#### *INDIA Redefined Pledge*

*I, a citizen of INDIA, take the pledge to Carry out my responsibilities toward the country and the society and stand for my rights. As a member of INDIA Redefined movement*

*I shall work within my available resources and time to awaken other citizens of India and create an Educated, Healthy, Green and Sustainable country to have a Prosperous and Happy India for ourselves and the future generations.*

*"Ask not what your country can do for you; ask what you can do for your country." - John F. Kennedy*

*India Redefined Youth Supporters did India Redefined Community Leadership Program, INDIA Redefined Internship, INDIA Redefined Internship of Law Students, other supporters organized some peace rallies called "March for Happy India" and some Village Supporters did Cleaning of some Villages.*

*India Redefined future Initiatives - "I Care", "Educate India", "Develop your own village", "Cure India", "Youth Campaign-Clean, Green, United, Peaceful India".*

*You can see interview aired on ETV Urdu "Ham Badlenge Desh Badlega" on website.*

*Many INDIA Redefined Supporters have put their INDIA Redefined badges on their facebook and other social networking sites. Please send your photograph on [ranjanakanti@indiaredefined.org](mailto:ranjanakanti@indiaredefined.org), for your INDIA Redefined badge.*

*Anyone can make a 5 minutes speech out of following, can take the content from following Speech given in Tedx. Presentation is on website.*

*Ranjana Kanti's Tedx Speech in Pune last year*

I am Ranjana Kanti, an ordinary Indian Citizen, professionally an animator and designer, now a social activist.

All my life I have been working for various social causes, purely at an individual level. However, I do not feel I made a noticeable difference at a broader level.

This made me think. How to do something which will have a larger impact?

Everywhere we all talk of problems in India - but do little.

Part of the reason is that we think that solving these are responsibility of the government, politicians, bureaucracy, economists or NGO's, social workers, Corporate - anyone but not ours.

We are very fond of talking of our RIGHTS but shy away from even talking about our responsibilities as a citizen of the country. Many of us do not even bother to vote and then criticize the people who are elected on vote bank politics.

This INERTIA is the root cause of many of our problems and we are partly to be blamed.

We have left governance to people who are not really our representative, policy to people who do not feel they are accountable to us, environment to NGOs who struggle without our support - the list can go on and on...

So came the idea of INDIA REDEFINED - A movement to create responsible and empowered citizens by bringing about "Behavioral Change".

It is only when we do our duties we shall be empowered to demand our rights.

It is by this change in behavior that we can unlock people's potential to be empowered citizens.

This will redefine how we think and act as an Indian.

....and that is what INDIA Redefined is about.

So, what is the Vision of INDIA Redefined? It is simply -

### CREATING A HAPPY INDIA

And how can we create a Happy India?

In my experience most of the ordinary people want to do something for the country, they just don't know how.

The idea is to mobilize these masses and bring them together.

How does INDIA Redefined do it?

By giving a structure to this... 'Desire to do Something'.

By creating an opportunity for them, to achieve small successes in doing something for the society

... Something within his resources and available time

- be it planting trees or cutting down the electricity consumption - a simple successful activity, that would not only be beneficial at a larger scale but also provide

the motivation to strive for bigger changes.

Developing this behavioral change across Indians of all strata, INDIA Redefined plans to tackle problems, leveraging the power of individual.

It is a citizen's empowerment movement - a platform for ordinary citizens by ordinary citizens - each fulfilling his own ISR - Individual Social Responsibility.

What makes this movement unique or even different?

Well, there are many wonderful organizations, NGO, Charities which do a lot of wonderful work - But it never seems to be enough.

Most of them work within a context or for a specific cause, that the overall positive effect ...

... is lost in the gaps.

One of the biggest reasons is that we have not tapped efficiently into the potential of the individual.

INDIA Redefined is a platform for people from different backgrounds, different social class, having different outlooks and opinions to come together and work towards redefining India.

That is why INDIA Redefined's vision is created by an amalgamation of different visions that ultimately leads to a HAPPY INDIA.

It is important to understand that we are not affiliated with a single political party or motive.

But do not hesitate to work with any and every political party, business houses or NGO for the right cause.

By bringing drops of people together on a common platform INDIA Redefined creates an ocean -

Ocean strong enough to make government, politicians, public servants not only accountable but also make each Indian an Awakened Citizen...

So where is INDIA Redefined today?

In one year time the membership has already reached more than a lakh.

This shows that there are people out there who want to 'do something'..Make a difference. All they need is the platform.

The idea has not only got support of people but also some recognition

- it was adjudged "The Best Humanitarian Initiative" in December 2009 among 250 other entries.

In this long journey of redefining India, we have taken only a few baby steps

But then again, a journey of thousand miles begins with a single step...

This idea.... Idea of a movement that is trying to tackle most, if not all, social issues and help citizens become empowered by the means of behavioral change, asks you for only one thing

- DONATION.

Not of MONEY.

But of TIME.

That to me is an idea worth spreading... THANK YOU

**Personal Note from Ranjana Kanti the real story of making of INDIA Redefined in last 25 years why visionary Anurag Kanti made Ranjana Kanti 'the face of Common People in INDIA Redefined'**

Anurag Kanti who is actual vision of INDIA redefined, and has two struggling business [www.redstreetproductions.com](http://www.redstreetproductions.com) and thought about it 20 years back within few years of our marriage will be too happy to get some focused person in INDIA Redefined who can add to IR vision as he has seen so many Intellectuals and Entrepreneurs have already added to the vision of INDIA Redefined, who are associated with many leading organisations Their inability to work regularly with INDIA Redefined doesn't mean that they are no longer an asset for country's development. Many of them have already shared with us vision, passion, commitment but differ on the route being taken sometimes. Their believe in being focussed and developing organisation from bottoms up where as INDIA Redefined is into many things simultaneously and working from top to bottom. This difference between our approach is another contribution in INDIA Redefined vision.

Last year, I helped a person to start Pak Redefined who rang me up from pakistan that there are 500 pakistanis with u in India Redefined, whom i told to copy paste everything from our website, changing only one word India into Pakistan, but when you visit there blog -Pak Redefined- they have written - Inspired by India Redefined and Ranjana Kanti. I tried to find in Google last year has any Pakistani who call themselves enemy of India has written anything nice about India in these 60 years? Same thing happened in Banga desh - one Entrepreneur Naila Chaudhry- from Bangladesh member of India Redefined, a great fan of Ranjana Kanti though hundreds of times I tell everyone including her that I am just an requesting me ten times that she is sending air ticket to me to come to her country, to start Bangladesh Redefined, but I only told her to copy things from my mails.

Visionary Anurag Kanti hadn't seen anyone or knew anyone so closely when 20 years back he thought of this vision of behavioral change and Citizen empowerment not by asking rights but by donating Individual Social Responsibility though believe me I neither have any photographs or data or evidence anywhere but Anurag always told me when I was refusing to make this as a movement with my name or pics coming anywhere, that you are not leader but face of common people. Movement Started in 2009, we started making Coordinators in every state, who wrote their own work profiles. Many applications came .Last year I selected 92 coordinators ( 90 percent selection was wrong as I am champion in selecting wrong people, Only work given to them was " I Care" Project ( See that in Downloads or somewhere on [www.indiaredefined.org](http://www.indiaredefined.org)) as our target was to get more hands and more brains from common people whom till now any organization, activists social workers like you and me made beneficiary not doers. to make India a Happy Country. But 90% section were removed this year because of non performance. As only way of selection of people is by CV or their keenness and enthusiasm. But nothing remains permanent. And if you read one year story of India Redefined, I will not say that without any extra time or resources if supporters did that much also , even though we don't get every activity's photograph and there are very few resources of IT people to update website with more pics and news.

I don't have any secretary or any office of India Redefined, only one chair and one computer in a very small office of my husband's struggling business, where half the time I only try to teach children from rural areas of UP, assam- giving them one room kholi with some utensils, mattresses, old cloths for those 3-6 months of training till the time they start earning. Earlier when before we closed down our animation studio with 22 people, I had 4 chairs and 4 comps. So everytime after going to hundreds of houses, roaming around on roads, I used to bring 25 slums, or ragpickers, 5th -6th failed, then training them in English, them basic computers , then Graphic and animations for one full year or 6 months, Even though I had to pay fees of all those 25, but after training only 5 used to become designers animators- many of them earning 20 to 40 thousands but among those five one always multiplied this. There are no photographs of all these as none of us ever knew that this will become INDIA Redefined some day.

There are many things written about me, many newspaper's exaggeration ,even in US magazines, some unknown TV channel interviews, photographs in even local newspaper with unknown names, will harm the movement if any single

person sees it and thinks I am a celebrity. I am just a telephone operator or coordinator. When a computer illiterate like me could become a multimedia professional, I started bringing hundreds of rag pickers and 6th failed slum boys girls graphic designing and animation, myself giving their fees by earning as a designer working whole night. When I helped a boy called Praveen Marotkar from Maharashtra village who was a construction worker boy of 16 years five years back, fell down from 8th floor -5 years back- broke legs, arms but when I brought him to my husband's small office where I used to get 4 computers and 4 chairs from 2005 to 2008 for few hours, and within those resources without any sponsors., that boy is not only teaching computers to villagers, those hundreds of villagers cleaned many other villages, where he has given few speeches in Marathi, took joining form from website, made many villagers who don't know computer join India redefined by downloading the form and printing it and xeroxing with his own money and cleaned so many Kachra with the help of those villagers. All printed forms he has sent to me, written in Marathi.

Then this year around 900 applications of senior IAS, DGP, Politicians and entrepreneurs from all over world came. I think only 5-6 are worth it. So rest I have deleted. Don't have resources to spread the message to right people. Only selecting among the people who send CV with some vested hidden interest, I can't judge who is right and who are wrong.

Now I am alone again in this whole world, not having a single selection committee or Core Group and don't know who are right or wrong. I am trying my best to ask 600 youths who are sending bulk mails to remove your email. But I think now it has multiplied to many more. Still my IT head in Pune has tried a way to do this.

On 3rd Oct, this year I was on the verge of going to Jail, while giving tribute to a sweet lady whose birthday used to be 3rd Oct, met me once in life in a place called Bagalkot- Karnataka where I was from 1996 to 1997 but the day I was leaving I did not have a place like my house where so many slum ladies used to bring masala packets, saree falls, other stitching things, nice home made sweets packets taught by me in clean atmosphere, and then directly going to shops or to customers from my place- as no one will give their precious sarees to slum areas or buy food from slums, this 3rd Oct birthday lady gave one corner of her room for continuing this women empowerment without even knowing me. This 3rd Oct when a policeman caught me in wrong parking, -trying to celebrate birthday of 4 beggar children, giving tribute to this lady and having only 150 rupees in my pocket, to buy the cake for those who don't know their birthday by which I was supposed to give my son's Vodafone bill- I told him to either put me in jail, or take this bribe of 150 rupees and leave me, or be the part of this birthday celebration and become the hero in front of full public - he talked to those 4-5 years old naked kids and when they and their beggar parents told him that I collected them for that only, that policeman who was going to put me in jail, saluted me broke certain laws, and offered me that he will celebrate their birthday, I can go away to pay my son's Vodafone bill.

I started believing this must be a part of Anurag Kanti's vision to make me and many like me who can be force multipliers, without any support or platform or organization or groups or NGOs. So right now I don't have a single person who is coordinator anywhere, as after removal of 92 people who were not willing to work any more, but did do for some time.

Anurag Kanti, the visionary of INDIA redefined who is a walking Encyclopedia, and by training is a Marine Engineer, left sailing 17 years back after he became Chief Engineer and with his college friend Jaidev Amirapu started an Animation studio and IT company, E-dutainment Unlimited [www.edutainmentunlimited.com](http://www.edutainmentunlimited.com) where both developed a software KRISTAL Vue which caters to Shipping Industry but now they are struggling to enter other Industries. They have another struggling business - a Production house making Films for Social Causes, Ad films, Corporate [www.redstreetproductions.com](http://www.redstreetproductions.com)

Please Recommend as many nice people you know.

Only selecting among the people who send CV with some vested hidden interest, I can't judge who is right and who are wrong. Suitable people can read the work profile of Coordinators. If you think anyone can do all the work, please recommend him or her. Then he/she has to again send CV and pic, show the keenness to join at [ranjana.kanti@indiaredefined.org](mailto:ranjana.kanti@indiaredefined.org) after joining the movement on website, & send their consent by writing two lines about themselves, why do they want to be coordinator in INDIA Redefined Movement and what can they do under this banner with their own vision? INDIA Redefined [www.indiaredefined.org](http://www.indiaredefined.org) needs to appoint 30 All India Coordinators who will form the Core Committee too.
