

For all those Indian Citizen's who hate Politics-

Let us not be scared to be affiliated with any political party. Instead be connected with the political system as much as possible. Use them as platforms to reach out to people rather than think of them as wardens of an ideological jail house. All the discussions we all do everyday on facebook, linkedin, drawing room, dining table about various issues like corruption, politics-good or bad and problems of our country will not make any difference , unless we participate in our country's activities. Who is going to listen to what we are talking? We all know that running of the country has been hijacked by people who only have a vested interest.What power citizen's have, to make these people accountable, ?

It is an appeal to all the intellectual class. Please come out with solutions for such things.Let us talk about solving problems. We all have done Enough of talking on facebook and we all are fed up of watching these news as mute spectators.As a citizen of India, we ask you -Do you want to make India better?Are you fed up of table-talks with no action?Are you willing to do your bit for the country?Are you confused how to do this?If your answer to any of these is YES, then join India Redefined ([www.indiaredefined.org](http://www.indiaredefined.org)) is a non-political Citizen's Empowerment movement.
